Hello there👋

This is dummy Pdf

📝 The pdf files should be named in numeric order.

First Pdf is named as: 1.pdf

Second Pdf is named as: 2.pdf

Third Pdf is named as: 3.pdf

And so on.. 👀

The pdf files should be stored in folder named "pdf"

You can replace these dummy pdfs with yours but make sure to name them in numeric order.

A pdf can contain any number of pages😎.

🔢 Page numbering starts with 1ˢᵗ page of "1.pdf" and it continues till last page of last pdf.

First, page numbers are added to all pdfs and the are stored in folder "unmergedpdf". 📂

The pdfs are merged into one pdf "Output.pdf" file 📄
